Class Descriptions

Blast TCG hosts a variety of classes from Science, Art, SciART, & TCG Knowledge .

Please scroll to the class type you are interested in.

Science

All Science classes are exclusively written and taught by our Education Coordinator who has 20 years of education experience. These classes are centered around specific themes with hands-on experiments based on scientific theories and evidence.
Full of fun and creative thinking!

★ **Charizard's Ability- Digestion**
This class is oozing with excitement. Participants will explore how Charizard is able to breathe fire through the study of the body's digestive system while experimenting with chemistry,

★ **Pikachu Ability- Static Electricity**
This class is packed with knowledge and fun! Students will learn how Pikachu uses his ability. We will explore and experiment with static electricity.

★ **Ditto Ability Science Class- Shape Shifting Animals**
This class will surely keep the participants attention as we study Ditto's ability to shape shift. We will explore using our five senses. Participants will even get to make their very own Ditto (slime!)

★ **Frozen Adventure- Winter Weather Experiments**
Do you want to build a snowman with us? Then, come with us on an adventure as we travel through the most snow filled parts of the movie Frozen, while we conduct scientific experiments discussing all things snow related. Yes, you will even get to build your own olaf out of snow you created!

More to come…
More classes will be added as new lessons
are composed. Have an idea or interest for a class? Email us today to share your thoughts with us!

Art

We offer a variety of Art classes. Art classes are guided by our staff.
All participants are encouraged to create a piece unique to their skill level.

★ **Create Your Own Card**
Now is your chance to make your own trading card. Use the template provided to draw and color your creation. Come up with your own special moves or use ideas from the chart provided. Cards can be original to you or based on real Pokemon cards. All materials are provided. This activity is self guided. While supplies last.

★ **Painting**
Calling all skill levels to participate in our magical art classes. The majority of our art classes use magic paper to trace and transfer an image onto canvas before painting. Pre Drawn canvases can be requested. Paintings will be on canvas, wood, or other creative art material.

★ **Holiday Art**
We love to celebrate together so come make some memories with us! Holiday art pieces vary from painting canvas or wood, to making pieces using glue guns such as snow globes or creating a festive ornament or decoration.

More to come…

TCG Knowledge

Taught by our Blast TCG specialists these classes are designed to inform parents, kids, and gaming enthusiasts to learn more about a product or a game. So, whether you want to learn how to play a game, value your own collection, or understand a genre, we have a class for you!

★ **Battle Academy**
Join us as we play the game the Pokemon cards were meant for- Battle Academy! Whether you already know how to play or you want to learn to play, come join us for a Pokémon battle! Bring your own deck, purchase deck sets or the entire game board from Blast!TCG.. We will have game boards set up for Free play. *No RSVP required.*

★ **Mom/Dad & Me-**
Are you a parent who just doesn't understand what your child is talking about? This class will break down the basics and provide a lasting bonding experience to cherish with your child. This class will be centered around a specific genre/theme.

★ **Are My Cards Real or Fake?**
Do you know what you're trading at school? Come to this fun interactive class taught by our knowledgeable staff. We will guide you through the process of determining if your cards are real authentic cards and we will teach you how to spot fake or proxy cards.

★ **What's My Card Worth?**
This class will show participants of all ages how to assess the value of their cards. You will need a device that can access the internet to look up card prices. We will go over market price, while understanding damage levels vs mint condition of cards. While we will teach you how to determine the value of your cards. This is NOTa buy/sell/trade event and we will not look up your cards for you as this is just a class. If you are looking for this type of assessment, you may schedule an appointment with our staff.

★ **All About…**
What is Lorcana? What's the deal with Pokemon cards being so popular? How do I know what to buy? Are just a few topics we discuss based on a specific theme. In this informational class we will go over all the basics and the hype of the series scheduled.

★ **DETECTIVE PIKACHU WORKSHOP**
Pikachu is on the case to share his secrets of how you can make the most of your collections. Together, we will determine if your cards are real or fake, find the value of your cards, help you make wise trades and get the scoop on the hottest trends in the Pokemon market.
